9. 2.1.1. **Review.** “Complete review of the CDM once per year with an initial review of current CDM set up and recommendation of changes/corrections utilizes verbiage that needs clarification for establishing an appropriate bid price...”

- (i) For the initial detailed review of the Charge Master, several parameters are needed to appropriately price this service:
 - c. What is the total count of active charge items in each of the files for review? (i.e. total number of active charge items) **There are 22,000 charge lines currently. This includes duplicate CPT codes that are set up for different facilities / departments.**
